### SUBJECT OF TEETH

The query on the teeth of cats in *Cats Magazine* (Mar. 1947, p. 14) deserves a rather fuller answer than it received. The count of teeth is right although it does not show that there is one more tooth on each side in the upper jaw than in the lower jaw. Technically there is only one molar (the hindmost tooth) on each side of each jaw, the rest of the apparent molars are premolars. The difference is that premolars are present both in the milk set and the permanent set.

As to the function of the various types, the incisors which are tiny, round-topped nubbins can hardly be significant in cutting. They seem to have two functions, in kittens they aid in clinging to the nipple while nursing, in adults they are used to remove burrs and similar adherent objects from the fur. The burr stays in the mouth while the hair slips between the incisors. The canines are grasping and piercing teeth. They serve to grasp living prey (and kittens when carried). They doubtless also are used in tearing pieces of skin or flesh from prey held by the fore paws. The full sized premolars and molars are cutting teeth (the technical term is "carnassial"), provided with interacting knife-edged ridges. It is easily observed that a cat with a piece of meat too big to swallow works the piece back between the cheek teeth to cut off a portion but never uses the front of the jaws. The same thing is normally done in cropping grass or leaves. These same teeth are made to serve for the crushing of bones.

CHARLES H. BLAKE  
Lincoln, Mass.

### WAKE UP, AMERICA

There was an article in the February issue headed "Boston Plagues with Cat Typhoid." It is a new virus germ and the doctors are frank and admit they don't know what it is. I lost ten out of twelve. Fortunately they were my younger stock, but sad enough and I am happy to say I kept it from spreading into my main cattery. It is taking a terrific toll. When is the U.S.A. going to wake up and insist upon a quarantine for animals entering the country? In my opinion it is a Foreign-borne germ brought in from Europe. Just try to get an animal into England and many other countries. They are smart enough to require quarantine. Enuf sed!

MRS. ORVILLE H. STEWART  
Washington, D.C.

### IF YOU MOVE—

Please notify us of your change of address 30 days before you move to insure prompt receipt of next month's issue. The Post Office does not forward magazines to new addresses. Paper limitations make it impossible to supply missing issues. If you can send us the label from the last issue it will help.

## THE MAIL BAG

### BOOSTS SHORT HAIRS

Seventeen years ago I discovered what a fine companion an American short-hair could be, although I am a N. C. smalltown dog lover. New York apartments are not fair to dogs, but well trained cats are made to order for apartment dwellers.

J. W. LINDAW, JR.  
New York, N.Y.

### ORCHID, MRS. HOGG

I hope you will have more stories similar to "My Siamese Cat and I" by Jean Hogg, showing the real value of a cat besides mousing. Information Please is also nice to have.

MRS. R. CAMERON  
Fort William, Ont., Canada.

If you read **CATS MAGAZINE** each month you will learn something new and interesting about your favorite pets.

**CATS MAGAZINE** does not sell or purchase cats, nor does it deal in cat supplies, remedies or feeds. **CATS MAGAZINE** does not compete in any way with its advertisers.

Everything you need  
to know about  
your Cat

*Know Your Cat*

by  
**JOHN HOSFORD HICKEY**  
and **PRISCILLA BEACH**

A SIMPLE, practical and complete manual of cat care. Tells you how to choose the cat that will be an ideal pet . . . how to tell by its actions whether or not it is healthy . . . the important factors in cat nature.

### HOW TO TRAIN YOUR KITTEN

Included are specific instructions about training your kitten . . . quieting its fears in the new house, training it to a leash, house-breaking, teaching it tricks, and preventing it from damaging rugs and furniture.

### WHAT TO FEED YOUR CAT

There is an extensive chapter on the proper feeding of kittens and cats for building sound bone structure, healthy teeth, vigorous constitution, and a beautiful lustrous, glossy coat . . . including diets for pregnant cats.

### LATEST INFORMATION ON THE CARE OF YOUR CAT

The authors — John Hosford Hickey and Priscilla Beach — give you the latest, practical information on equipment and accessories for your cat . . . beds, combs, brushes, col-

lars, leashes, scratching boards, sandboxes, traveling cases, and toys. Explicit directions on brushing, combing, defleaing, bathing, care of the mother cat and her kittens, common cat ailments and how to take care of them. In addition, there are interesting chapters on the mystery of the cat's origin, and standards for pedigreed cats in Great Britain and the United States. Illustrated.

**SMALL CATTERY OWNERS**

I am very interested and I am sure many of you other readers too are interested in ideas and suggestions in building and planning the cattery itself. Many of us need a small cattery house with runways, but need nothing so large as some of the very large catteries. Why not publish an article by one who has had a lot of experience in this business on a smaller scale, giving us their ideas of practical plans and materials for the small cattery?

BONNIE M. PAUL

Guthrie, Okla.

**WANTS A-A PICTURES**

I do hope the winning cats of the All-America can be color photographed by a private party and sold through *Cats Magazine*. I now wish to obtain pictures of the best types.

G. T. COMHAIRE

Buda, Texas.

**TAKING NO CHANCES**

Your expiration notice is quite shocking. I nearly fell down the stairs. I am subscribing for five years to miss this broadside for a few years at least.

P. A. TOOMBE

Syracuse, N.Y.

**SHOW CALENDAR****1947-48 SEASON**

**"LABCO PET SHAMPOO IS USED EXCLUSIVELY IN MY CATTERY"**

writes Mrs. Rita Swenson, outstanding cat breeder and writer, of 18 Willow Street, North Adams, Mass.

"For speed, safety, dependability and economy, I unhesitatingly recommend the use of LABCO PET SHAMPOO. It has been used exclusively in my own cattery for over a year and I have found nothing to equal it for cleaning and defleaving. My immediate reaction to Labco's many fine qualities was a spontaneous expression of complete approval. It is a MUST for every fancier and pet owner."

## LISTING

Effective with this issue, the registrations of the American Cat Association will be published each month. Arrangements were completed at the annual meeting of the association, held March 13 at Chicago.

The two-page listing has been arranged in such a manner that the page each month may be removed from the issue and inserted in a loose-leaf binder for ready reference.

The listings begin with Volume 39 and include registrations received by ACA beginning January 1, 1947. Errors (if any) in the registrations as published must be taken up direct with ACA headquarters and NOT this publication, since *Cats Magazine* has no authority to make any changes. The space has been purchased by ACA and the organization alone has sole authority for the entire contents of the two pages.

Fourteen member clubs had delegates present at the annual meeting, or were represented by proxies. It was announced that the Kitsap Cat Club, Bremerton, Wash., and the Council Oat Cat Club, South Bend, Ind., had affiliated with the Association.

Matters of current interest were discussed including revisions in the by-laws, cat standard, show rules and registration. The Burmese standard, as prepared by the Burmese Society, was accepted as the official ACA Burmese Standard. Several committees were appointed to carry out planned projects. Mrs. George D. Kessler was made an Honorary Life Member in appreciation of her long and faithful service.

Following the business meeting a dinner was held with a program including an address by Dr. W. A. Young, Association president, on "Diseases of the Cat," and by Mrs. J. J. Small on "Judging the Cat."

## GIFT

We are in receipt of a letter from Mr. H. J. Atkinson, director of the Sudbury Laboratory, South Sudbury, Mass., wherein he states that he is sending each of the owners of the winning All-Sectional places, a complimentary prize of a FULL SIZED PACKAGE of HYGIENIC CLEANING POWDER to make "those winning cats more glossy, clean and beautiful than ever." Thank you Mr. Atkinson for your interest in the All-America and for your strong patronage of *Cats Magazine* by the regular advertising of the fine Sud-

bury products. We know the winning owners will be pleased to receive the gifts.

## FOILED

We were hopeful that we would have sufficient paper to move into 32 pages with this issue, but once again we were fooled. As a result some of our old standbys are missing from this issue including Rita Swenson. We were also forced to hold out some excellent advertising including a full page featuring those excellent blacks of Mrs. H. P. Shipe of Detroit, Dbl. Ch. Great Lakes Basildon Talisman, Imp. and Ch. Great

**MRS. STANLEY GIBSON**  
Sec'y-Treasurer, A.C.A.

Lakes Charcoal, whose names will be found in the listings of the All-Midwestern and the All-Eastern of last month. Also, a Canadian kitten trio recently acquired by Mrs. M'Adelle Rollings of famed Rollingwood Ranch, Walled Lake, Mich. And, of course, we had to turn back several All-Midwestern winners because the copy and photos were received after the deadline.

We have several fine articles on tap too, one treating raising dogs and cats; another on the current Siamese judging "situation," and a third interesting treatise on the professional career of women veterinarians featuring a list of the colleges that support veterinarian schools.

But to top this off, after announcing

that we had subscribed to the worldwide Acme News Picture Service, we fail to include a single picture. We have some dandies, including pertinent shots of the recent Paris Cat Show.

But there will come a day when paper is more plentiful, in order that we can enlarge and give our readers a full grown cat publication. That day is just around the corner!

## THANKS

We wish to extend our sincere thanks to the individual breeders as well as the show secretaries and club officials for their excellent cooperation in forwarding marked catalogs for us to complete the All-Sectionals and the All-America. In this we received 100% cooperation and service. Every exhibition is included in rankings, thus assuring a complete scoring for each and every section! And a real All-America!

## AM-1947

With this issue *Cats Magazine* proudly releases the All-Midwestern Sectional. We hope you approve of the choices. In two instances two changes were made as a result of the late New Orleans Show. It is interesting to note that in the tortoiseshell (long hair) division, two cats were tied with the same number of points and both are owned by Detroiters. We doubt seriously a repeat duplication. Another unusual feature is that one fine cat is honored posthumously.

Eight states are represented in the 43 selections with Missouri leading the way with 13; followed by Michigan, 11; Ohio, 6; Wisconsin, 4; Illinois and Minnesota 3 each; Indiana 2; and North Dakota 1. Missouri swept the Siamese positions and all four Manx listings. The AM-1947 cats are the finalists in the competition for the All-America rankings, competing against the best in the East, the South (to be announced next month) and the Far West (to be announced in the July issue). The All-America will appear in the August issue. All cats have been selected by a mathematical system based on their competition in the 1946-47 Shows against cats of their own breed, color and sex with certain credits for Best in the Show.

## CAMPAIGN

Subscribers in and around DES MOINES, IOWA interested in organizing a cat club, are requested to communicate immediately with Mrs. George H. Cook, 1209 7th Street, Perry, Iowa.

## 70 SIAMESE AT NEW ORLEANS; HECHT, MACKIEWICZ CATS WIN

A record-shattering entry of 70 Siamese featured the second championship New Orleans Cat Show and Siamese Specialty staged at Audubon Park, Louisiana, March 22-23.

The blue-eyed white female Double Champion Exquisite of Pets Beautiful (AM-1947), owned by Mrs. C. X. Mackiewicz, Milwaukee, Wis., carried off Best Cat in the sparkling field, with the seal point Siamese, Vee Roi's Krisadon (AM-1947) capturing Best Opposite Sex. Krisadon is owned by Mrs. R. H. Hecht, Normandy, Mo., and duplicated his All Breed win by coming home Best Opposite in the Siamese Specialty next to his cattery-mate, Ch. Vee Roi's Bonnie Jean, blue point female, Best Cat.

Krisadon was sired by Ch. Cyama's Krisnarja of Vee Roi ex Dbl. Ch. Vee Roi's Donna Dee. The double victory shoved aside Mrs. Hecht's Vee Roi's Krisadee for All-Midwest honors.

Exquisite of Pets Beautiful rounded out her most brilliant season in the Louisiana show and showed at her top brilliance to the delight of the spectators in the Southern city. She also added Best Champion to her heavy collection of honors.

Ch. Vee Roi's Bonnie Jean was sired by Vee Roi's Blue Gene ex Dbl. Ch. Sweet Tee Too.

Dbl. Ch. Exquisite of Pets Beautiful was sired by Pets Beautiful Blue Boy ex Dixi-Land's First Lady of Pets Beautiful.

The results follow:

### All Breed Show (ACA)

Judge — MRS. ANNA PARDEE

Best Cat—Dbl. Ch. Exquisite of Pets Beautiful (AM-1947), b.e. white female, Mrs. C. X. Mackiewicz.

Best O.S. Cat—Vee Roi's Krisadon (AM-1947), s.p. Siamese, Mrs. R. H. Hecht.

Best Novice—One-ee, red tabby male, Mrs. F. Keel.

Best Kitten—Predi of Dobyns, s.p. Siamese male, Mrs. G. A. Dobyns.

Best Champion—Dbl. Ch. Exquisite of Pets Beautiful (AM-1947).

Best Short Hair—Vee Roi's Katisha (AM-1947), s.p. female, Mrs. R. H. Hecht.

Best Neuter—Lisette, silver tabby, Mrs. Eric Knobloch.

LILLIAN D. LIMPert  
R.F.D. 1, MENTOR, OHIO

With the drawing to a close of the most highly successful and strongly contested show season in many years, the Fanciers are now engaged in the fascinating but serious business of raising future contenders.

To the many, whose good fortune it was to add that much coveted prefix "Champion" to the titles of their meritorious felines, may we offer our heartiest congratulations? High on the list of these notables deserving of special mention is that beautiful black, Ch. Grayhaven's Susie Q, who gained her final winning points at the early November show in St. Louis. Not only is she lovely to look upon, but is a breeder of merit as well. This was evidenced by the honors bestowed on her sons and daughters, the past few months where they ranked in Final Bests of some of our largest shows. Mrs. Audley Gray, Detroit, Michigan, their breeder, may well be proud of that enviable record.

Fairchild's Davork II and Fairchild's Detra II, Abyssinians owned by Mrs. Stanley Gibson, Chicago, also completed C.F.A. Championships in taking winners at Milwaukee, Boston and Chicago.

The cream male, Ch. Lord Van Dike of Woodbine, best cream of North Shore's show, increases the Persian Champions to four in number, for Mrs. Robert Boehlow, St. Louis. She also owns four Manx Champions.

The handsome cream male, Collinsdale Apollo Victory, bred by Mrs. Elsie M. Collins, New York City, is now "At Home" with Miss Marie Stodden, Galena, Ill. Her new owner is delighted with him and writes that he is more like a devoted puppy, at her heels at every turn. Nigrette's Angel's Imp, pale blue daughter of Nigrette's Angel Bear by Barbe Bleue Fibber, has also been sold to Miss Stodden.

The solid blue shorthair, Lady Boo, an entry at the North Shore Club's show, has been selected as the companion for Humphrey, black shorthair owned by the Chicago Theater Guild. Humphrey also appeared at the show and is the Guild's mascot. Lady Boo is missed by her former owner, Marie Stodden.

On strength of Quinn's Chin San of Royal Flush (AC-1947) Seal Point Siamese male, Mrs. Elsie L. Quinn of San Gabriel, Calif., has sold a female to Mr. Stephen Walsh of Toronto, Canada. This should firmly establish the Quinn Siamese in Eastern Canada. We also learn that another Siamese, a female has been shipped to Mr. Walsh. She has since presented him with a litter of seven kittens. An A-C cut has also been forwarded as a gift.

We were sorry to learn of the illness of Mr. Charles Victor, No. Hollywood, Calif. Mrs. Eva T. Harris, Van Nuys, California, informs us that Wimauma's Masterpiece is now temporarily residing at the Barbe Bleue Cattery.

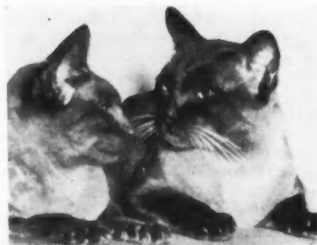

New arrivals in Framingham, Mass., Ch. Chindwin's Lantana (AE-1947), Seal Point proudly presented them to her owner, Mr. Everett M. Battey.

# REDS

By D. DEANS-HENDERSON

When one writes about Reds he is treading on dangerous ground. Mention one class of Reds, and it is necessary to comment on all of them.

Beginning with the solids, and judging by the Standards, there is a diversity of opinion. One Standard describes the Red as "Orange or Red." Another makes no mention of Orange, the description dealing with deep rich, clear brilliant red. So far so good, but the point to be stressed is solidness of color. This is most essential, yet how many people have seen an absolutely SOLID RED? Even the best shown have light and dark markings. The ruff and under-body color is never as dark as the back, and there are invariably, light and dark — even tabby — markings on face and forehead. Few, if any, are solid to the skin.

I have seen Reds entered as solids, showing slight markings on sides only to be transferred to the tabby classes where they stand no chance of winning even a fourth ribbon. Where do such cats stand? I maintain that they are more solid than tabby, and if not permitted in the Red classes, then they should not be judged in either.

In the exaggerated zeal for dark red, I have observed Reds with long noses, foxy faces, large ears and leggy, but of a rich color, to win over cats excellent in type but of a slightly lighter shade. The rich dark red is what we desire, but often the points allowed for type, head and condition, outscore the points for color, providing the color in the more perfect type is not definitely off the Standard.

The ideal red is dark with good type. There are many such exhibited in our shows. In checking over catalogs, I notice where one entry was described losing to another of equal coloring, but with poorer type but heavier bone. This brings up another point. A large cat is not always a good cat. There is a sharp distinction between "heavy in bone" and coarseness. Personally, I do not like a heavy-boned cat unless it has symmetry and conformation.

To perfect the red for color, I suggest a very best type male, to be bred with a good black female. This will result in black males, red females with, perhaps, a tortoiseshell. Next, breed the best red female of the litter back to

the sire. Such procedure, through the influence of the black, should produce darker reds of better type.

In the Red Tabby classes, we are apt to find an assortment of entries. Frank-

## Just One Spoonful

of this clean, granular vitamin product, added to the food every day, gives any cat the full benefits of

Fortified Cod Liver Oil  
Brewers' Type Yeast  
Irradiated Brewers' Type Yeast  
Wheat Germ Oil  
Riboflavin Supplement

Patented feature of Conkey's Y-O prolongs vitamin potency. With over 100 teaspoonfuls to the pound, it is very economical.

Conkey's Y-O whets the appetite, aids digestion and metabolism, helps build strong bone, healthy organic and muscular tissues. Fine for the coat and to help restore faded eye color.

Daily use helps safeguard against breeding failures and has proven an indispensable aid to the kitten feeding program. Ask the breeder who is using Conkey's Y-O. Better yet, send only \$1.00 for the large 1 lb. 5 oz. package. West of Rockies, \$1.15.

## 1946-47 CAT FANCIERS' ASSOCIATION CHALLENGE AWARD WINNERS

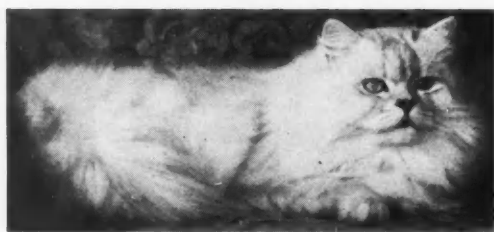

**Ch. Dixi-Land's Pearl Harbor Yank**

**Ch. Fairchild's Fan Tan**

**Wycliffe Chelsie**

**Gr. Ch. Duffy of Beverly-Serrano**

**Ch. Dixi-Land's White Historian II**

At the annual meeting of The Cat Fanciers' Association, Inc., held February 27 at New York, the CFA Challenge award for winning Best Cat greatest number of times in CFA-sponsored shows was deadlocked between Mrs. J. H. Revington, Bristol, Tenn., and Mrs. Jessie C. Hazlett, Los Angeles, Calif., each having taken Best Cat three times at 4-point shows. Gr. Ch. Duffy of Beverly-Serrano and DbL Ch. Ho Yan of Beverly-Serrano combined to give Mrs. Hazlett a tie-hold. Duffy, who won in 1945 is a shaded silver male, as is Ho Yan. The blue male, Ch. Dixi-Land's Pearl Harbor Yank (twice) and Orange-eye White Ch. Dixi-Land's White Historian II, combined to place Mrs. Revington to co-holder of the award. The Revington White sire, Gr. Ch. Dixi-Land's White Historian and grandsire, Gr. Ch. Rosedere White Hope of Arlington were previous winners of this award — believed to be a three-generation record.

Best Kitten award went to Mrs. Lawrence Pelton of Hubbard, Ohio with Wycliffe Chelsie. (four times) and Wycliffe Chu-Imp (twice). Both are blue males. Mrs. Helen G. Fairchild of Carlsbad, Calif. took the Best Short-Hair Award with Ch. Fairchild's Fan Tan (twice) and Ch. Fairchild's Nyima (once) seal point Siamese females; and Abyssinian female, Ch. Fairchild's Wazero (once).

It was announced at the meeting that Mrs. James S. Mood had resigned as Recorder and that Mrs. James S. Carpenter was named successor.

# WEANING KITTENS

By HELEN G. FAIRCHILD

The correct time to wean kittens is really up to the mother cat and the kittens themselves. We have had some litters that started to eat between 3 and 4 weeks of age and others (usually big, spoiled babies of one or two to the litter) that wouldn't take an interest in solid food until they were 5 or 6 weeks old and had their poor mothers trimmed down to a shadow.

The normal kitten should begin tasting food at 4 weeks and eating heartily at 5. One very important thing in the transition from only mother's milk to solid food is that the mother's milk must be available. The kitten receives vital food elements from the queen's milk at this critical time that is very hard, if not impossible, to supply artificially. When the kittens are about 8 weeks of age they should be eating regular solid meals and need no extra feeding from "mama." However, at this time the Cattery Manager must keep close watch on the babies and if one turns up its nose at a meal — take the food away quickly and offer no more until the next regular feeding. Perhaps the little fellow ate too heavily the time before. But if he refuses the second meal he should be isolated from his brothers and sisters until one finds if he is just too full to eat or if he is really sick. No young kittens just beginning to eat solid food should be allowed to go over 48 hours without food. They have so little in the way of resistance to fall back upon that they must be forced to keep them going. Pure meat juice, a spoonful or two at a time, is very nourishing and if fortified with an all 'round vitamin tonic usually will carry a well kitten over a day or two of voluntary fasting and when he begins to eat again he will keep right on and develop into a healthy cat.

In our cattery when the kittens begin to take an interest in food we serve the mother on a large plate and the kittens have room to gather around and take a bite if they feel so inclined. Once in

a while a "backward boy" will just insist on walking through the food dish and scattering kittens and food all over the floor while the others are trying to eat. This is the one that we teach to eat by putting a bite in his mouth, which he will, of course, spit out immediately. However, one or two lessons and he will be right in there eating with the rest. The kittens usually begin eating canned fish first. I believe this is because the odor is strong and tempting to the Cat. We never leave food around for kittens to eat "at leisure." If they do not clean up their dish in the usual time it is removed until the next meal. Baby kittens have small stomachs and so their meals are small to begin with. But besides the usual two meals a day, we give a noon feeding to the babies which consists of Pablum and diluted canned milk. They soon eat more and more of Pablum and milk and take less and less from the mother and so are gradually weaned to solid foods.

Then they are fed exactly like the older cats: horse meat (ground) or beef with all vitamins added for breakfast. At night they are fed either canned fish, eggs, dry (farmer style), cottage cheese or liver which has been dropped into hot water and left until it has changed color. Our cats and kittens are never fed vegetables as it has been our experience that their digestive systems are not designed to accommodate the fibrous material found in most of them. We depend upon Vitamin C tablets or tomato juice to supply the vitamins found in green vegetables. As mentioned above they also get Vitamin A and D (cod liver oil) and the B Complex (Brewers Yeast) as well as added calcium for teething kittens and pregnant and nursing queens.

After the kittens are completely weaned and beginning to grow they will eat as much, if not more than the full grown cats — just like a growing boy whose family declares that he has hollow legs!

North Adams, Mass.

## REDS (Continued from Page 9)

ly these classes are the hardest to judge. We find tabbies with beautiful markings on sides, dark red in color, but no evidence of bracelets or spinal markings, long heads and noses. Others have distinctly marked spinal lines, seen at a glance, good type and eye color, but slightly lighter in ground coat. Which shall be chosen?

To the casual observer, the first cat described, appears more in keeping with the Standard. Only the head is considered the point not favorable. Yet, spinal markings, the lack of which is only apparent to the judge, is really part of the tabby markings and should be visible. Therefore, the lighter undercoated cat is the more desirable in such cases.

Also found in the Tabby classes is the misguided, slightly-marked Red with no claim to being a tabby. This cat should never make its way to a championship in either class. It could perhaps, with judicious breeding, serve a useful purpose to its owner.

In tabby classes, the first point to observe is markings, to determine if the cat qualifies as a tabby. No matter how deep the color, or how good the type, if the color on the back is solid with only a dash of markings on the side, it cannot be classed as a good tabby.

Usually the side markings are visible to the audience. The judge must look for more than that. Often the reason a favorite of the onlookers is put down is not apparent to anyone except the judge, who holds the winner for inspection, showing off its good points and explaining why that particular cat has been named the winner.

Light plays strange tricks from different angles in a show room. Judging cages do not always receive an equal distribution of light. Sometimes a tabby of only fair quality placed in a cage where the light strikes favorably, appears outstanding, while the better cat, in a darkened cage in a row, is not noticed.

Judges, when handling tabbies in particular, can ascertain the type, markings, et cetera, but must also compare competitors from the same vantage point, as well as from long distances and close up points. This cannot be done properly if two cats of seeming equal merit, are placed in two cages, each with a different flood of light. It is well to give both cats a turn in the cage where the light is more favorable — usually the center cage. Then step

back and make final comparisons. This is an excellent rule to follow in all classes, but essentially in tabbies.

At the beginning, I stated that it was necessary to comment on all classes of Reds, including the "Peke face," but since there is so much to write, that class must be deferred until a later date.

## —Discovery by— Noted Veterinarian **STOPS CAT-ITCH**

For years, veterinarians were baffled by a common skin disease that caused untold agony to dogs and cats. Starting as a burning itch, it soon develops dandruff-like scales and brownish edged sores with a mouldy odor in ears, on paws, under-body, back or around tail. Treatments for mange, fleas, allergy or faulty diet result only in costly care or actual loss. Now, noted veterinarian, Dr. A. C. Merrick, has positively identified this disease as a fungus infection comparable to "Athlete's Foot." He has named it "fungitch" and has also developed SULFODENE, a treatment proved amazingly effective in thousands of clinical cases. Applied externally, Dr. Merrick's SULFODENE stops the itch in a few minutes—scales and sores vanish in a few days. Buy today where you get pet foods or remedies—or send \$1.00 for generous treatment; money back if it fails to give complete satisfaction. Address Brookfield Laboratories, Dept. E-367, Brookfield, Illinois.

## THE BREEDERS' DIGEST

(Continued from Page 11)

Mrs. Rita Swenson's Queen High returned from a recent visit to Periwinkle's White Christmas (Best Cat in Boston show). Super kits are expected from this. Mrs. Swenson is happy enough to shout it from the hilltop these days, the good word that her young hopeful, Jocky, is now siring. This home grown product, a son of Queen High, by White Historian, is a large strapping fellow, all bone and muscle with the nicest head, relates Mrs. Swenson. Her young queen, Clover, was bred to him in March.

Mr. Anthony De Santis, Paterson N. J., whose lovely cats have been in the limelight in recent months, reports the following breeding activities: Glen Moor's Melody, blue-eyed white, daughter of Ch. Frosty King Boris and Ch. No No San has been bred to Callavorn Hi Ho of Longhill, blue grandson of Gr. Ch. September Sunshine and Loughton Firefly, Imp. Eiderdown Susie of Longhill, blue cream daughter of Ch. Barbe Bleue Wolof's Bamba and Ch. Eiderdown Noga Nola has been bred to Ru Ling Robin, pale blue son of Ch. Lavender Blaze and Lavender Moormead Lysbeth, Imp. From this combination Mr. De Santis hopes for a cream or red of exceptional type.

We have heard more regarding those recent Imports. Black Cloud of Takeley, at the age of six and a half months already shows promise of developing into a really good black female writes Mrs. H. P. Shippe, Detroit. Her sire, Ch. Heatherland Blue Boy, was Best Cat five times in the two years he was shown before the war in England, which ended his show career. Due to the war, her dam was never shown. The grand-dam, Ch. Della of Downside, was considered one of the best blacks. Lots of luck, Mrs. Shippe! We shall all be following Black Cloud's progress with interest.

Mrs. Arvid Ohlin, now residing at Westerly, R. I., was also on hand to meet the Queen Elizabeth in January, which brought her two very fine blue females from Miss Langston. Rosalind and Morfydd are coming along nicely now, although it took some time for adjustment to our diet. Morfydd is but eight months old. Rosalind is older and will soon be bred to Mrs. Ohlin's Imp. Magnus of Allington.

Mrs. Ada Pectol, St. Louis, shipped a blue female to Mrs. J. J. Small, Cleveland. "Candy," daughter of Sugar Plum, has already endeared herself to the entire household. Another addition, the young blue female bred by Mrs. F. Kosierowski, Detroit, Michigan, is her inseparable pal. Jinx of the Tower and Eden's Joey Boy are the parents. A Litter sister was sold to Mrs. Elizabeth McGrew, also of Cleveland.

Mrs. C. Preston, St. Louis, Mo., has added two blue females as mates for her Billy Bluebeard II, Best Novice of St. Louis All Breed show. Khyber's Bluee, daughter of Imported Dixiland Salute and Khyber's Pamela, the blue

ribbon winner of that large class of Novices of Detroit Persian Society's show and Nigrette's Angel's Cherub were chosen.
